Parent Circular No: 43/ 2016

28 January 2016

Dear Parents / Guardians,

## **Code for Fun Programme for Primary 5 students**

**Code for fun** is a programme conducted for students in partnership with Info-communications Development Authority of Singapore (IDA). The objective of this programme is to increase the students' exposure to coding and computational thinking. This helps to heighten their logical reasoning and understanding of the processes that go into coding.

The school has scheduled the Primary 5 students to attend these training sessions. Each class will attend 5 training sessions of 2 hours each. The cost per student would be about \$72 and will be **fully funded by the school**. We strongly encourage parents to send their students for this programme

Parents can find out more details about the programme at the following website:
