

Poised to Take Flight

Scouts Akela Award

Mdm Sunita

Congratulations to the eleven outstanding WRPS Cub Scouts who received the prestigious Akela Award! Awarded by the National Cub Scout Programme Council, these award recipients have demonstrated their broad acquisition of scouting skills and leadership qualities in addition to a strong display of core values such as resilience and responsibility. Well done, WRPS Cub Scouts!

P5 Applied Learning Programme: Scratch

Mrs Jenny Ong

In this increasingly digital world, equipping our young learners with programming skills has never been more crucial. Scratch, the Primary 5 Applied Learning Programme, offers our students a hands-on experience to grasp programming concepts while creating an interactive digital game on water conservation. Through the collaborative work and critical thinking expressed via game play, students also develop a profound awareness of environmental issues.

Intense focus while learning through play produces the best outcomes!

Family Bonding Activity by Parent Support Group (PSG)

Mdm Vanessa

It was indeed a popping good time learning balloon twisting techniques from members of our Parent Support Group! Parents and children came together to learn the art of balloon twisting and the children were especially excited to create balloon sculptures of their favourite cartoon characters!

Strengthening the ties that bond WRPS, PSG, parents and children

Making Winnie "The Balloon" Pooh!
