

# 2024 Parents' Engagement Session

## Study Skills and Expectations of Primary Mathematics (Primary 3 & 4)

Saturday, 13 Apr 2024

# Objectives

- To better equip you with knowledge and skills in coaching your child in Mathematics by creating an awareness of the expectations for Primary 3 & 4 Mathematics
- To increase collaboration between parents and the school

# Aims of Primary Mathematics: Laying a strong foundation

- ✓ Acquire mathematical concepts and skills for **everyday use** and **continuous learning** in mathematics
- ✓ Develop thinking, reasoning, communication, application and metacognitive skills through a mathematical approach in **problem-solving**
- ✓ Build **confidence** and foster **interest** in mathematics

*Passionate Learners, Gracious Citizens*

# Mathematics Curriculum

## Primary 3

## Primary 4

### Number & Algebra

- Whole Numbers
- Fractions
- Money

### Measurement & Geometry

- Length, Mass & Volume
- Time
- Area & Perimeter
- Angles
- Perpendicular & Parallel lines

### Statistics

- Bar Graph

### Number & Algebra

- Whole Numbers
- Fractions
- Decimals

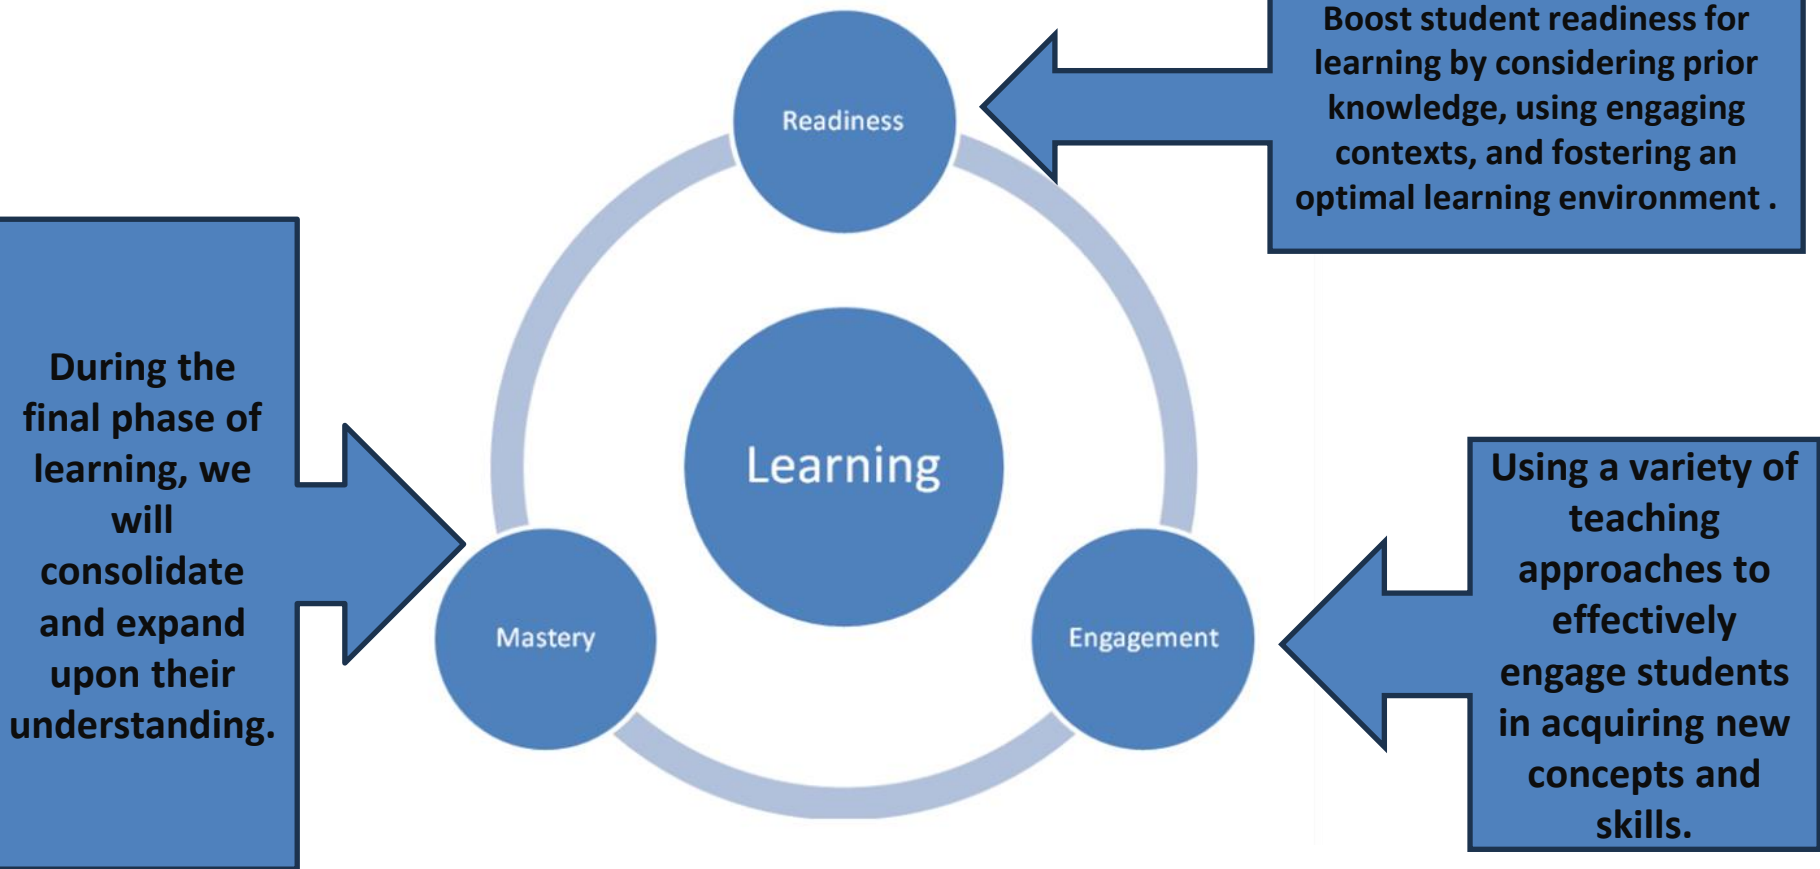

### Measurement & Geometry

- Area & Perimeter
- Symmetry
- Squares & Rectangles
- Angles
- Nets

### Statistics

- Tables & Line Graphs
- Pie Chart

# Mathematics Curriculum

*Passionate Learners, Gracious Citizens*

# Topic: Whole Numbers

PRIMARY 1	PRIMARY 2	PRIMARY 3	PRIMARY 4	PRIMARY 5
Numbers up to 100	Numbers up to 1 000	Numbers up to 10 000	Numbers up to 100 000 Rounding off Factors and Multiples	Numbers up to 10 million
Addition and Subtraction within 100	Addition and Subtraction up to 3-digits	Addition and Subtraction up to 4-digits		
Concepts of multiplication and division	Multiplication and Division (Multiplication tables of 2, 3, 4, 5 & 10)	Multiplication and Division (Multiplication tables of 6, 7, 8, 9) 3D by 1D	Multiply 4D by 1D and 4D by 1D Divide 4D by 1D	Order of Operations Multiply and divide by 10,100,1000 and its multiples

*Passionate Learners, Gracious Citizens*

# Topic: Whole Numbers

- Pupils need to remember multiplication tables, especially multiplication tables of **6, 7, 8 and 9**.
- Pupils need to know how to perform Division of Whole Numbers especially long division algorithm
- Parents can help by **revising** with your child and ensure that they have mastered their multiplication tables.

# Factual Fluency

Ability to recall the answers to basic Math facts automatically without hesitation.

Level	Number Facts
P1 Term 1	Number Bonds up to 10
End of P1	Addition and Subtraction within 20
P2	Multiplication tables of 2, 3, 4, 5 and 10
P3	Multiplication tables of 6, 7, 8 and 9

# How to develop Factual Fluency?

- ✓ Practice
- ✓ Learning using concrete materials
- ✓ Games

# Strategies for learning multiplication tables

- **Multiplication Fact Cards**
- Multiplication Songs
- Show patterns/fingers for 9 times table
- Games or Online resources

# Multiplication Fact Cards

$$\begin{array}{r} 3 \\ \times 4 \\ \hline \end{array}$$

$$\begin{array}{r} 4 \\ \times 3 \\ \hline \end{array}$$

$$\begin{array}{r} 4 \\ \times 3 \\ \hline 12 \end{array}$$

$$\begin{array}{r} 8 \\ \times 9 \\ \hline \end{array}$$

$$\begin{array}{r} 9 \\ \times 8 \\ \hline \end{array}$$

$$\begin{array}{r} 9 \\ \times 8 \\ \hline 72 \end{array}$$

$$\begin{array}{r} 11 \\ \times 10 \\ \hline \end{array}$$

$$\begin{array}{r} 10 \\ \times 11 \\ \hline \end{array}$$

$$\begin{array}{r} 10 \\ \times 11 \\ \hline 110 \end{array}$$

- Multiplication Songs
- **Show patterns / using fingers for 9 times table**
- Games or Online resources

# 9 times table – Pattern

09

18

27

36

45

54

63

72

81

90

## 9 times table

$$1 \times 9 = 9$$

$$2 \times 9 = 18$$

$$3 \times 9 = 27$$

$$4 \times 9 = 36$$

$$5 \times 9 = 45$$

$$6 \times 9 = 54$$

$$7 \times 9 = 63$$

$$8 \times 9 = 72$$

$$9 \times 9 = 81$$

$$10 \times 9 = 90$$

$$11 \times 9 = 99$$

$$12 \times 9 = 108$$

[Timestables.com](http://Timestables.com)

# 9 times table – Using fingers

$$1 \times 9 = 9$$

1st finger is down

$$2 \times 9 = 18$$

2nd finger is down

$$3 \times 9 = 27$$

3rd finger is down

$$4 \times 9 = 36$$

4th finger is down

$$5 \times 9 = 45$$

5th finger is down

$$6 \times 9 = 54$$

6th finger is down

# 9 times table – Using fingers

$$7 \times 9 = 63$$

7th finger is down

$$8 \times 9 = 72$$

8th finger is down

$$9 \times 9 = 81$$

9th finger is down

# Mathematical Language

Mathematical terms/ phrases	Part-Whole	Combine	Compare
Sum / Difference	Some of them	Total	More
Product / Multiply	$\frac{1}{3}$ of them	In all	Less/ Fewer
Quotient / Divide	Remaining	Altogether	Heavier
Remainder	Left		Lighter
Factor / Multiple	Shared equally		Taller
Groups of			Shorter
Equal groups			
3 times as many as			

# Mathematical Language

Q1) The **difference** between two numbers is 25.

The smaller number is 17.

What is the greater number?

Q2) The **difference** between two numbers is 25.

The greater number is 57.

What is the smaller number?

Q3) The **sum** of two numbers is 68.

One of the numbers is 56.

What is the other number?

# Mathematical Language

Q1) The **difference** between two numbers is 25.

The smaller number is 17.

What is the greater number? [  $25 + 17 = 42$  ]

Q2) The **difference** between two numbers is 25.

The greater number is 57.

What is the smaller number? [  $57 - 25 = 32$  ]

Q3) The **sum** of two numbers is 68.

One of the numbers is 56.

What is the other number? [  $68 - 56 = 12$  ]

# Problem-Solving

At a carnival, every 4<sup>th</sup> child gets a free party hat. Every 6<sup>th</sup> child gets a free balloon. If there are 40 children at the carnival, how many children will get both the free gifts?

# Marking Scheme

Multiples of 4: 4, 8, **12**, 16, 20, **24**, 28, 32, **36**, 40

**[M1]** for listing multiples of 4

Multiples of 6: 6, **12**, 18, **24**, 30, **36**

**[M1]** for listing multiples of 6

**Ans: 3 [A1]**

# Solution 1

1, 2, 3, 4, 5, 6, 7, 8, 9, 10

11, 12, 13, 14, 15, 16, 17, 18, 19, 20

21, 22, 23, 24, 25, 26, 27, 28, 29, 30

31, 32, 33, 34, 35, 36, 37, 38, 39, 40

**[M1]**

**Ans: 3 [A1]**

# Solution 2

1, 2, 3, 4, 5, 6, 7, 8, 9, 10

11, 12, 13, 14, 15, 16, 17, 18, 19, 20

21, 22, 23, 24, 25, 26, 27, 28, 29, 30

31, 32, 33, 34, 35, 36, 37, 38, 39, 40

**[M2]**

**Ans: 6 [A0]**

# Solution 3

1, 2, 3, 4, 5, 6, 7, 8, 9, 10

11, 12, 13, 14, 15, 16, 17, 18, 19, 20

21, 22, 23, 24, 25, 26, 27, 28, 29, 30

31, 32, 33, 34, 35, 36, 37, 38, 39, 40

**[M0]**

**Ans: 3 [A0] {Answer marked as wrong method}**

# Topic: Fractions

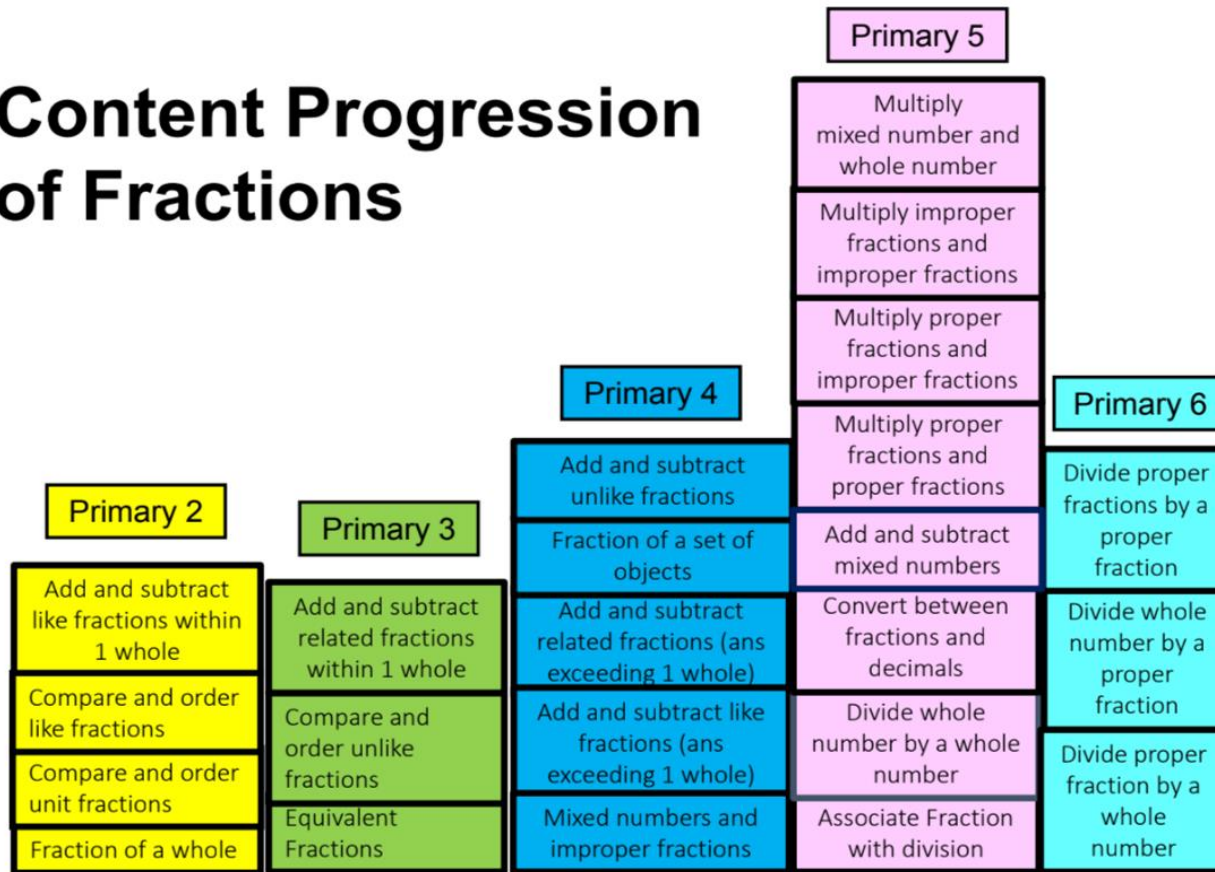

- Pupils generally have difficulty understanding the concept of Fractions
- Important to grasp concept of equivalent fractions as it will help in understanding future topics like ratio, percentage and decimals.

# Topic: Fractions

## Content Progression of Fractions

# Equivalent Fractions

- Fractions that look different but have the same value
- Basis for comparing fractions and addition and subtraction of fractions

# Equivalent Fractions

- Do you think these are equivalent fractions?

$$\frac{2}{8}$$

$$\frac{3}{12}$$

$$\frac{1}{4}$$

# Equivalent Fractions

- Do you think these are equivalent fractions?

$$\frac{2}{8}$$

$$\frac{3}{12}$$

$$\frac{1}{4}$$

# Equivalent Fractions

1. Paper Folding

2. Fraction bars / discs

# Equivalent Fractions

## Paper Folding Activity

*Passionate Learners, Gracious Citizens*

# Equivalent Fractions

$$\frac{1}{4}$$

$$\frac{2}{8}$$

$$\frac{3}{12}$$

**Comparison of fractions:** same denominator

- ✓ **Multiply** both the numerator and denominator by the same number

**Express fractions in simplest form**

- ✓ **Divide** both the numerator and denominator by the same number

# Fraction of a set

Danial has 15 pens.

$\frac{2}{5}$  of the pens are green

# Fraction of a set

Find the value of  $\frac{2}{5}$  of 15.

$$5 \text{ units} = 15$$

$$1 \text{ unit} = 15 \div 5 \\ = 3$$

$$2 \text{ units} = 3 \times 2$$

$$= 6 \\ \text{So, } \frac{2}{5} \text{ of } 15 \text{ is } 6.$$

Divide 15 into  
5 equal parts.

One part is  
 $\frac{1}{5}$  of 15.

# Measurements

- ✓ Conversion of units
- ✓ Importance of using timeline
- ✓ Difference between area and perimeter
- ❖ Wrong or no units written
- ❖ Difficulty applying concept of perimeter and area

# Length, Mass and Volume

## ***Conversion of units***

✓  $100 \text{ cm} = 1 \text{ m}$

✓  $1000 \text{ m} = 1 \text{ km}$

✓  $1000 \text{ g} = 1 \text{ kg}$

✓  $1000 \text{ ml} = 1 \text{ l}$

23 Express 3 km 9 m in metres.

$1 \text{ km} = 1000 \text{ m}$   
 $3 \text{ km} = 3000 \text{ m}$   
 $3000 \text{ m} + 9 \text{ m} = 3009 \text{ m}$

Ans: ~~3009~~ m

# Length, Mass and Volume

- Have conversations with your child on :
- how heavy things are e.g. packet of rice, salt, sugar
  - length of the items e.g. door, window, cupboard
  - capacity of bottles or containers e.g. milk, fruit juice

# Time

Q1) Cindy's piano lesson ended at 15 30. It lasted 45 minutes. What time did the piano lesson begin?

$$15\ 30 - 45\ \text{min} = 14\ 45$$
$$3.30\text{pm} - 45\ \text{min} = 2.45\text{pm}$$

*Common error:*

Presents incorrect mathematical statements

# Presentation of working

Check that **number sentences** are written correctly

★ Time

15 min after 4.30 p.m.

$4.30 + 15 = 4.45$  p.m.

Ans: 4:45 pm or 16:45

★ Time

15 min after 4.30 p.m.

4.30 p.m.  $\rightarrow$  15 min = 4.45 p.m.

**(draw timeline)**

Ans: **4.45 pm or 16 45**

# Area and Perimeter

- Wrong or no units written for perimeter (cm/m) and area (cm<sup>2</sup> or m<sup>2</sup> )
- Difficulty applying concept of perimeter and area

# Geometry

- ✓ For geometry, important to have the mathematical instruments, protractor, ruler and set square.
- ✓ Know how to use the tools eg: ruler starting from zero
- ✓ Accuracy is important for this topic

# Geometry

Reading from the inner scale:

*Common error:*  
Using the wrong  
scale when  
measuring angle

Reading from the outer scale:

# Geometry

- Know the parts of the protractor
- Be very accurate when drawing or measuring angles

# Geometry

Draw the following angles using both the i

(a)  $57^\circ$

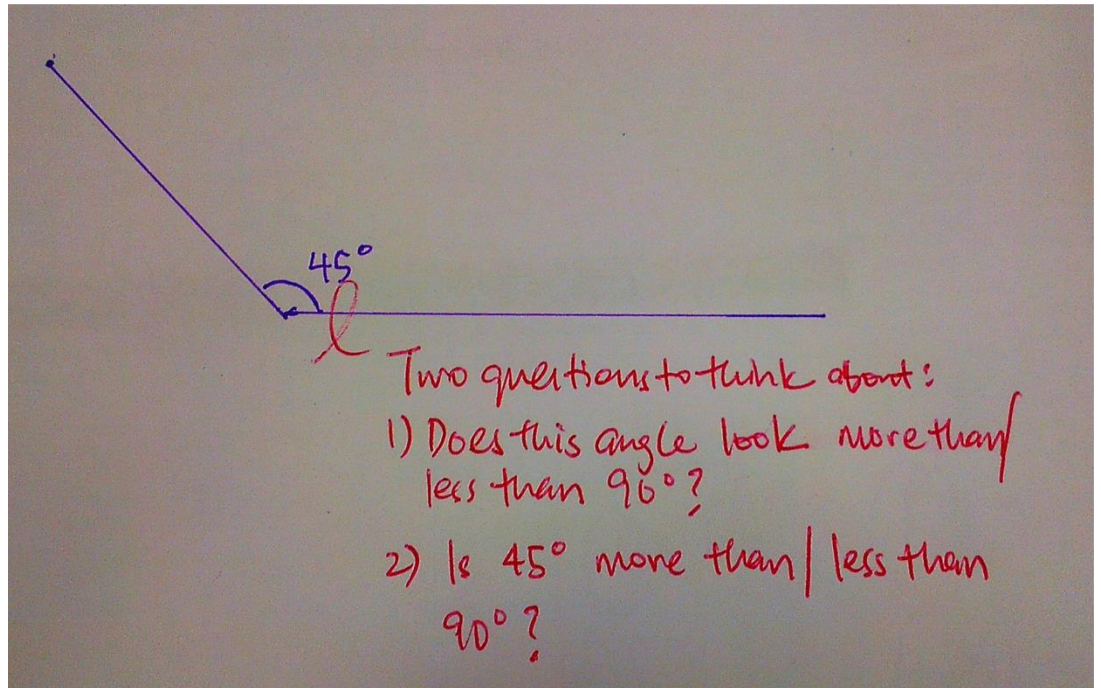

(b)  $126^\circ$

*126° is a  
much bigger angle.*

2. Join the marked end point of each line to a

# Geometry

*Common error:*  
Diagrams are not  
labelled accurately

# Geometry

*Passionate Learners, Gracious Citizens*

# Statistics

**Favourite Colours**

Colour	Number of Students
Yellow	80
Green	20
Blue	60
Red	40

**Sizes of PE T-shirts**

Size	Number of Students
Small	30
Medium	60
Large	50
Extra-Large	60

I use a bar graph to show the data collected in my survey.

Data can also be represented in a pie chart.

*Passionate Learners, Gracious Citizens*

# Statistics

Favourite Colour

10 students were asked to choose a favourite colour. The bar graph below shows their choices.

5 students chose red and blue. 5 students chose yellow and green.

# How can you help?

## Monitor

- Ensure that homework is completed and presented with logic and accuracy.
- Persevere through challenges

## Support

- Create a positive learning environment
- Get students to explain their solutions and reassure them of your unwavering support
- Let them know that you believe in their potential to succeed.

## Partner

- Use correct mathematical language at home
- Practice Factual Fluency
- Use the STEP approach in problem solving
- Help us to Follow-up on the STAR Package

*Passionate Learners, Gracious Citizens*

# We want to hear from you

*Thank you!*
